

**DECLARATION OF JEFF GRADY IN SUPPORT  
OF U.S. PATENT APPLICATION NO. 10/780,329**

1. My name is Jeff Grady, and I am the President and Chief Executive Officer of Netalog, Inc. Netalog does business as “Digital Lifestyle Outfitters,” abbreviated as “DLO.” I founded Netalog in 2001 and I have been employed continuously by the company since its inception. I am the inventor of the subject matter claimed in U.S. Patent Application Serial No. 10/780,329 (“the present application”).
2. I am familiar with claims pending in the present application, which claims recite audio player assemblies each including (1) a main body portion with a docking cavity for docking a MP3 player or portable digital media player; (2) at least one speaker; (3) a radio receiver; and (4) a frequency tuning control and/or frequency indicator on the main body portion.
3. In 2004, Netalog introduced the IBOOM® boombox, which is an audio player assembly embodying the four features identified above and embodying the elements of at least some of the claims pending in the present application. A photograph of Netalog’s IBOOM® boombox having an Apple iPod® docked thereto is provided in **Exhibit A**. Such boombox clearly includes (1) a main body portion with a docking cavity for docking a MP3 player or portable digital media player; (2) multiple speakers; (3) a radio frequency receiver (*see* “FM” button with up and down “Tune” control buttons, plus digital frequency display showing “102.9” frequency); and (4)

frequency tuning control (up and down “Tune” control buttons) and frequency indicator (digital display showing “102.9” frequency).

4. Within the past two years, Netalog has sold more than eighty-five thousand (85,000) examples of the IBOOM® boombox. Netalog’s IBOOM® boombox initially was introduced with a Manufacturer’s Suggested Retail Price of \$149.99. Such price was subsequently reduced to \$129.00, and more recently to the current price of \$99.00. While retailers have some latitude to adjust actual sales prices, it is believed that the aggregate revenue generated by sales of the IBOOM® boombox have exceeded \$8.5 million.

5. I am not aware of any other audio player assembly antedating either (1) the filing of the present application or (2) Netalog’s introduction of the IBOOM® boombox, and embodying the four features identified above.

6. Following Netalog’s introduction of the IBOOM® boombox, however, I have become aware of a substantial number of other audio player assemblies introduced to the market and embodying the four features identified above. Such products are identified in **Exhibits B-U**, as appended hereto.

7. **Exhibit B** includes at least one photograph and a textual description of the “iHome iH31S Boom Box for iPod” (Source: [http://www.ihomeaudio.com/products.asp?product\\_id=10090](http://www.ihomeaudio.com/products.asp?product_id=10090).) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog’s introduction of the IBOOM® boombox.

8. **Exhibit C** includes at least one photograph and a textual description of the “JBL On Time time machine dock for iPod” (Source: [http://manuals.harman.com/JBL/HOM/Product%20Information/On%20Time%20Sheet%2012\\_9.pdf](http://manuals.harman.com/JBL/HOM/Product%20Information/On%20Time%20Sheet%2012_9.pdf).) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog’s introduction of the IBOOM® boombox.

9. **Exhibit D** includes at least one photograph and a textual description of the “jWin ILUV I552-WHT IPOD Portable AM/FM Radio and Docking Speaker System” (Source: <http://www.ecamerafilms.com/ProductDetails.asp?ProductCode=I552WHT>.) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog’s introduction of the IBOOM® boombox.

10. **Exhibit E** includes at least one photograph and a textual description of the “JVC RA-P10 Portable Audio System” (Source: [http://www.jr.com/JRProductPage.process?Product\\_Id=4143229&JRSource=googlebase.datafeed.JVC+RAP10](http://www.jr.com/JRProductPage.process?Product_Id=4143229&JRSource=googlebase.datafeed.JVC+RAP10) .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog’s introduction of the IBOOM® boombox.

11. **Exhibit F** includes at least one photograph and a textual description of the “XtremeMac's Luna iPod alarm dock” (Source: <http://www.engadget.com/2006/11/23/xtrememac-s-luna-ipod-alarm-dock-a-better-mouse-trap/> .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog’s introduction of the IBOOM® boombox.

12. **Exhibit G** includes at least one photograph and a textual description of the “Memorex iListen Speaker System for iPod Mi1006-BLK” (Source: [http://www.memorexelectronics.com/html/product\\_detail.php?PID=204](http://www.memorexelectronics.com/html/product_detail.php?PID=204) .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog’s introduction of the IBOOM® boombox.

13. **Exhibit H** includes at least one photograph and a textual description of the “Memorex iWake™ clock radio for iPod” (Source: [http://www.memorexelectronics.com/html/product\\_detail.php?PID=199](http://www.memorexelectronics.com/html/product_detail.php?PID=199) .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog’s introduction of the IBOOM® boombox.

14. **Exhibit I** includes at least one photograph and a textual description of the “Emerson iPod Clock Radio with SmartSet” (Source: [http://www.target.com/gp/detail.html/602-9956050-0003045?asin=B000FGD2HM&AFID=Froogle&LNM=B000FGD2HM|Emerson iPod Clock Radio with SmartSet&nAID=14110944&ref=tgt\\_adv\\_XSG10001](http://www.target.com/gp/detail.html/602-9956050-0003045?asin=B000FGD2HM&AFID=Froogle&LNM=B000FGD2HM|Emerson_iPod_Clock_Radio_with_SmartSet&nAID=14110944&ref=tgt_adv_XSG10001) .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog’s introduction of the IBOOM® boombox.

15. **Exhibit J** includes at least one photograph and a textual description of the “Jensen JiMS-110 Universal iPod Docking Music System with AM/FM Digital Clock Radio” (Source:

[http://www.houseandhomegifts.com/catalog/product\\_info.php?products\\_id=4141&osCsid=9388a23f23ed2d392263207a02e60ea1](http://www.houseandhomegifts.com/catalog/product_info.php?products_id=4141&osCsid=9388a23f23ed2d392263207a02e60ea1).) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

16. **Exhibit K** includes at least one photograph and a textual description of the "TEAC SRL200i-B Hi-Fi Table Radio with iPod Dock" (Source: <http://www.jr.com/JRProductPage.process?Product=4112952> .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

17. **Exhibit L** includes at least one photograph and a textual description of the "GPX iLive ICR6806DT iPod Dock w/Digital Tuner AM/FM Stereo Clock Radio" (Source: [http://www.etrionics.com/product.asp?stk\\_code=gpxicr6806dt](http://www.etrionics.com/product.asp?stk_code=gpxicr6806dt) .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

18. **Exhibit M** includes at least one photograph and a textual description of the "Tivoli Audio iSongBook" (Source: <http://www.tivoliaudio.com/product.php?productid=200&cat=&page=1> .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

19. **Exhibit N** includes at least one photograph and a textual description of the "Memorex iMove boombox for iPod" (Source: [http://www.memorexelectronics.com/html/product\\_detail.php?PID=198](http://www.memorexelectronics.com/html/product_detail.php?PID=198).) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

20. **Exhibit O** includes at least one photograph and a textual description of the "Sharper Image SI343 iBeam Speaker System with Universal Dock for iPod, AM/FM Tuner and SRS WOW Technology" (Source: <http://www.sharperimagebest.com/si343.html> .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of

the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

21. **Exhibit P** includes at least one photograph and a textual description of the "Sharper Image Sound Soother Alarm Clock with AM/FM Radio" (Source: [http://www.sharperimage.com/us/en/catalog/product/sku\\_SI321BLK](http://www.sharperimage.com/us/en/catalog/product/sku_SI321BLK) .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

22. **Exhibit Q** includes at least one photograph and a textual description of the "Fisher Studio Standard Stereo Radio/Alarm Clock with iPod Docking Station" (Source: [http://www.sharperimage.com/us/en/catalog/product/sku\\_SA258](http://www.sharperimage.com/us/en/catalog/product/sku_SA258) .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

23. **Exhibit R** includes at least one photograph and a textual description of the "AudioClear CD Stereo with Universal Dock for iPod" (Source: [http://www.sharperimage.com/us/en/catalog/product/sku\\_SO335](http://www.sharperimage.com/us/en/catalog/product/sku_SO335) .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

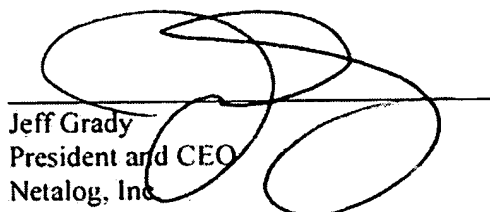

24. **Exhibit S** includes at least one photograph and a textual description of the "Hammacher Schlemmer Under-Cabinet iPod Dock and Radio" (Source: <http://www.hammacher.com/publish/72998.asp> .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

25. **Exhibit T** includes at least one photograph and a textual description of the "iWoofer Speaker System for iPod" (Source: <http://www.welovemacs.com/10050.html> .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM® boombox.

26. **Exhibit U** includes at least one photograph and a textual description of the "Homedics Sound Spa with iPod Port" (Source: <http://www.lnt.com/product/index.jsp?productId=2348939> .) Upon information and belief, such product comprises an audio player assembly within the scope of at least some of the claims pending in the present application, and the introduction of such product postdated the filing of the present application and Netalog's introduction of the IBOOM<sup>®</sup> boombox.

I declare under penalty of perjury that the facts set forth in this declaration are true and correct, that all statements made of my own knowledge are true, and that all statements made on information and belief are believed to be true. I have been hereby warned that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements may jeopardize the validity of the application or any resulting patent.

Executed at Charleston, South Carolina, this 22 day of December, 2006.

jbl on time™

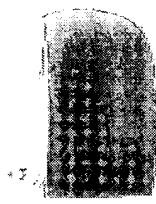

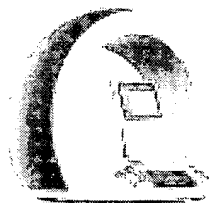

time machine dock for iPod®

# jbl on time™

## time machine dock for iPod®

JBL On Time revolutionizes the way you use your iPod. A compact, high-performance time machine and sound center, JBL On Time lets you wake up to music stored on your iPod, instead of to annoying buzzers or fuzzy radio reception. Just connect your iPod, MP3 player or other music source to JBL On Time and experience clean, powerful and dynamic sound. JBL On Time includes a radio, clock and dual alarm, and is the world's first time machine to include a menu-driven, intuitive user interface.

**Compatibility** JBL On Time incorporates the Apple® iPod Universal Dock adapter and is compatible with most docking versions of the iPod, including nano and 5G versions. A stereo mini jack connection allows you to enjoy high-quality audio from a variety of other devices, including the iPod shuffle™, MP3 and CD players, desktop and laptop computers (all platforms), and satellite radio.

**Easy-to-Use Music and Navigation Controls** Just a touch increases or decreases the volume; another touch allows you to choose iPod, radio or auxiliary as your source. The five FM and five AM radio channel presets are simple to program. And JBL On Time remembers your source and the last volume setting, even after your music source is turned off.

**Time and Alarm Features** Wake up to a favorite song you've stored on your iPod. The intuitive user interface allows for all functions to be programmed easily using navigation buttons that provide instant access to the menus. Change settings such as language, alarms and snooze. The automatic time-set feature provides one-button time setting.

**Display** The large backlit LCD is easy to read, making menu navigation a snap. Automatic dimming provides the correct brightness level in any environment. A dome light provides a glow for your iPod; lighted buttons are easy to find in the dark.

**Additional Features** *Halo acoustics* – The horizontal acoustic level optimization, or *Halo acoustics*, design provides a full, rich sound field from any direction. The upward-firing tweeter and horizontal low and midrange transducers provide a 360-degree sound field.

*OnePoint design* – The OnePoint iPod connectors provide the connection to your computer. Connect the standard iPod cable to the rear of JBL On Time and, every time you dock your iPod, you'll have a connection for synchronizing.

*Evercharge topology* – JBL On Time provides power to charge your iPod, even when it's not connected to the computer, or the system is off.

*Backup battery* – JBL On Time's memory is kept by a backup battery. Even with the power out, JBL On Time will provide the alarm function.

*TimeCrawler* – JBL On Time is capable of setting the clock automatically from any local radio station that transmits the time in its signal.

**Advanced Technology** JBL On Time combines many proprietary technologies to provide the highest quality sound, and reproduces astonishing bass and clear, accurate sound from any direction.

*Phoenix and Ridge transducers* – The two Phoenix aluminum-domed full-range transducers are driven by powerful neodymium magnets. The Ridge tweeter provides accurate high frequencies. This two-way design provides a full, rich frequency response from the lowest bass to the highest highs.

*COE (Computer Optimized Equalization)* – The JBL On Time system equalization is computer-optimized to provide a rich, complete soundstage.

*OCT (Optimized Compression Topology)* – JBL On Time utilizes a proprietary compression technology to ensure clean, accurate sound at high output levels.

### Detailed Technical Specifications

Manufacturer:	JBL, Incorporated
Model name:	JBL On Time
Available in:	White with flint gray
Input requirement:	Main connection – iPod docking connector
Auxiliary connection:	1/8" (3.5mm) Mini stereo jack
Drivers:	One Ridge and two Phoenix neodymium drivers
Power:	6 Watts per channel (left, right, tweeter)
Frequency response:	70Hz – 20kHz
Dimensions:	Diameter – 10" (254mm) Height – 10" (254mm)
Weight:	2.5 lb (1.2kg)
Input impedance:	>5k Ohms
Signal-to-noise ratio:	>80dB
Voltage input:	120V AC U.S., 100V AC Japanese, 230V AC Europe

Ultra-compact, go-anywhere portable has a built-in iPod dock and FM tuner. It runs on 6 AA batteries and includes an AC power supply ... more info

J&amp;R Item # JVC RAP10

Mfr. Part # RAP10

JVC

Ultra-compact, go-anywhere portable has a built-in iPod dock and FM tuner. It runs on 6 AA batteries and includes an AC power supply

When you're home or away from home, and you want to remove your headphones, your iPod has a dock where it can charge and play through full-range stereo speakers. The JVC RAP10 is a portable stereo system that features a built-in radio, 2 speakers, and a dock for your iPod. Now your iPod can fill a room with its library of songs and sounds for sharing, caring, or hearing. It operates on AC power for use at home. It can be portably powered by 6 AA batteries as a lightweight carry-around for use while camping, cruising, or hotel-ing away from home. It's a great gift for any iPod fan. It's a fine choice for you.

- Built in iPod Dock —Connect, Control & Charge your iPod. Enjoy your music files via the speakers for greater listening pleasure
- Power Output: 4 watts per channel (with AC Adapter)
- Full-Range Speakers deliver sounds from lows to highs
- Built-in FM Tuner w/ 20 station presets
- Clock with alarm mode
- Room Thermometer
- Includes Remote Control
- Includes AC power adapter cord
- Uses 6 AA batteries for portable use

## HOLIDAY GIFT GUIDE

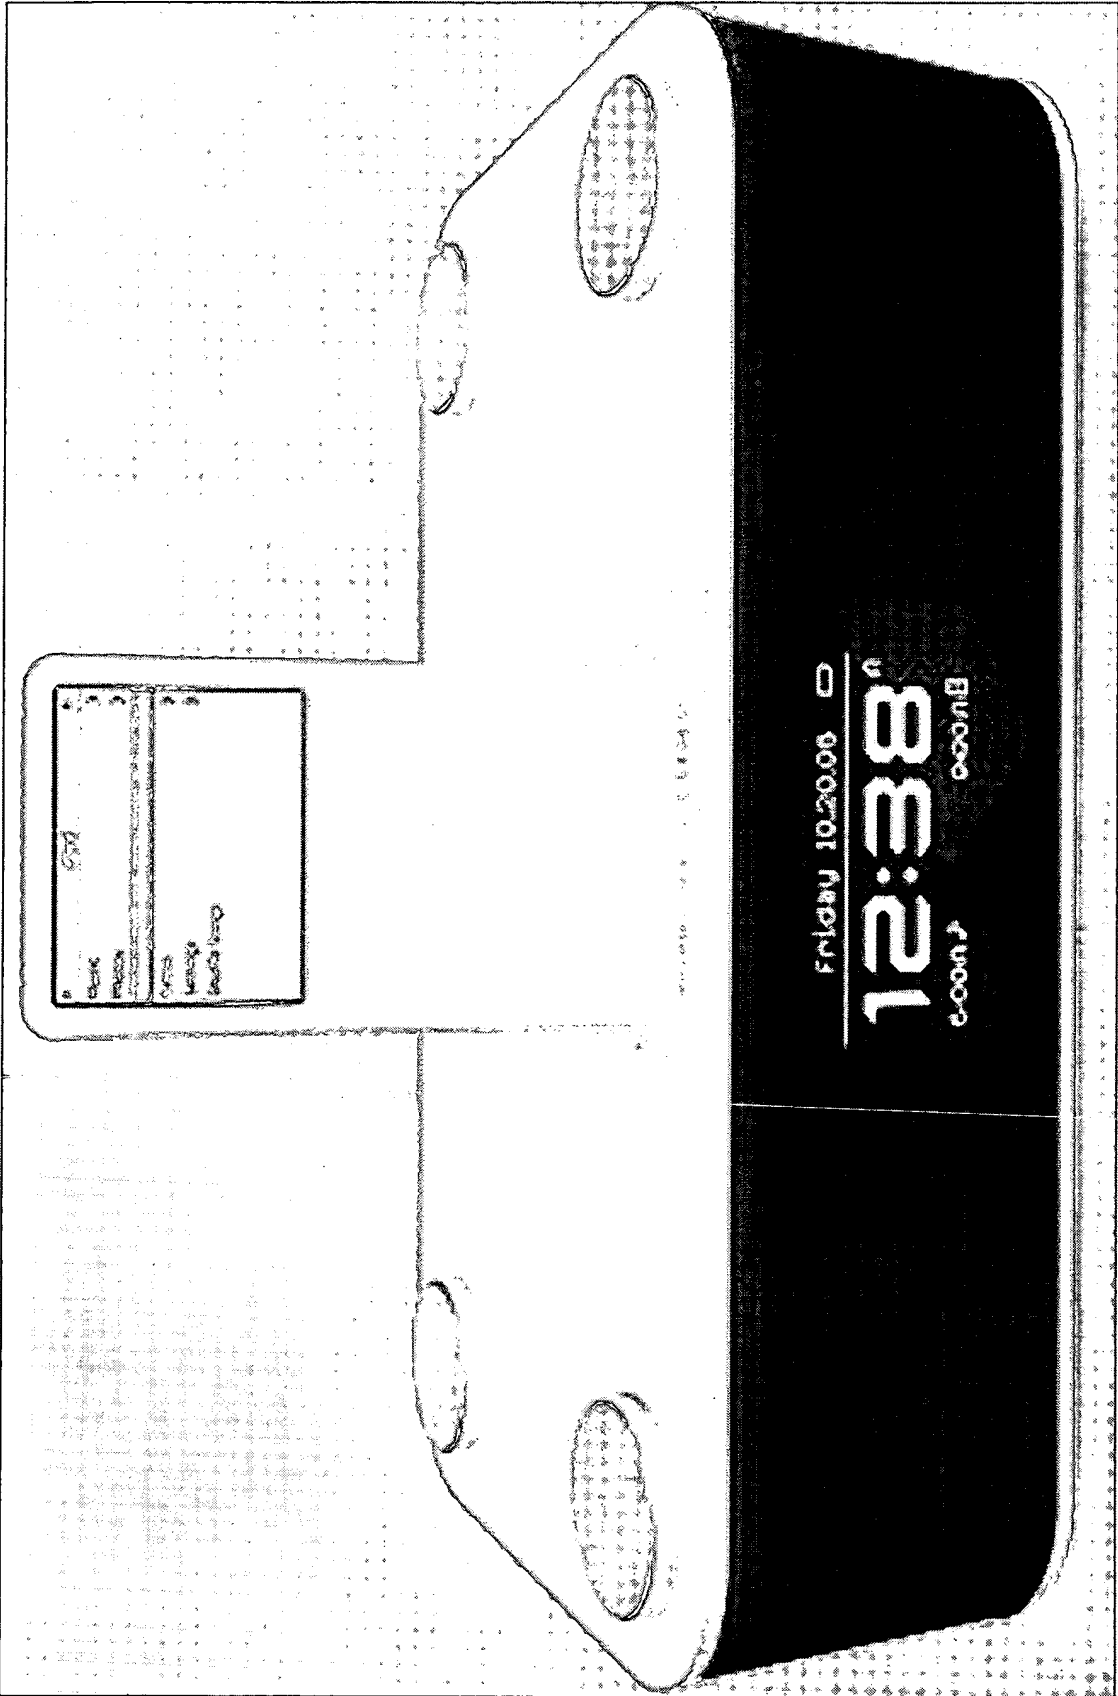

### XtremeMac's Luna iPod alarm dock: a better mouse trap

Posted Nov 23rd 2006 9:56AM by Thomas Ricker

Filed under: Home Entertainment, Household, Portable Audio

Sure, we don't see many new types of iPod accessories as the market is saturated these days. However, we'll bite when a new take on an old design hits as fresh as the LUNA alarm clock / audio system does from XtremeMac. That white-on-black clock face shows the time, date, and dual-alarm settings and brings an iPod-like menu for navigating deep into the guts of the system. And those silver rings on top? They're not just for show, those are the manual controls for bass, treble, radio, and of course, volume. And those 2x full-range speakers are driven by a "powerful" two-channel amp which should provide ample fix to that morning audio jones. Rounding things out are a remote control, aux-in jack for other audio devices, and a fat set of bedroom-friendly options including an adjustable display brightness which can even be mapped to alarm and sleep modes, gradually increasing or decreasing volume options for wake or sleep, and customizable snooze from 1 minute to 60 or sleep from 1 to 90 minutes. Hitting December 18, but available for pre-order now for \$150.

31 of 33 people found the following review helpful:

**Automatic snooze is BIG problem, I do not recommend, August 15, 2006**  
Reviewer: **NJ smart woman "NJ cares" (USA)** - See all my reviews

This clock radio has an automatic snooze sensor which you cannot control. The alarm (ipod, radio or buzzer) immediately shuts off and goes into snooze mode the minute it detects anything within 24 inches of it. By just turning in bed, this... [read complete review](#)

Frequently Asked

**Order before December 13th for guaranteed delivery before December 24th**

JIMS-110: Forget about crowding your nightstand or dresser with an alarm clock, radio and iPod charger dock. The Jensen Universal iPod Docking Music System handles all of those needs in one simple package.

Compatibility: The JIMS-110 is directly compatible with the iPod, iPod Mini and iPod Nano via the interchangeable iPod adapters. The auxiliary input jack enables connection of an iPod Shuffle, MP3 players, CD players or other digital audio players.

Alarm clock: The alarm clock settings allow you to choose from waking to an alarm, radio or iPod. The fold-down front opens to the function keys.

Radio: This docking system functions as a stereo receiver with AM/FM radio and Automatic Digital Tuning.

Remote: The JIMS-110 comes with a remote that controls the radio and iPod functions (except iPod Shuffle).

## Product Information

**More  
Information**

- Includes two excellent built-in stereo speakers; a ZipConnect™ module for playing any iPod® or MP3; and an AM/FM digital tuner with four presets.
- The big, clear, easy-to-read LCD has dual snooze alarms with ramp-up volume; its backlight can be dimmed.
- The Sound Soother® offers four soundscapes (White Noise, Surf, Rain and Brook) and the Song Soother™ has four selections (Lounge, Jazz, Spa and Guitar) for uninterrupted background music.
- Take a quick nap without resetting the alarm using the nap-timer with 15-minute push-button increments.
- Plugs into standard outlet; settings are backed up by a 9V battery (order separately).
- Interchangeable ZipConnect charging module is available (SI903, \$9.95) for all dockable iPods.

## The Under-Cabinet iPod Dock and Radio

**WAS 199.95 NOW 149.95**

Unlike traditional under-cabinet audio systems that are equipped only with a radio or CD player, this unit also houses any docking iPod, letting the user enjoy their digital music collection in the kitchen as they dine, prepare meals, or clean. The built-in folding dock charges and plays your iPod, and the unit includes a separate input for the iPod Shuffle, while the easy-to-read oversized, backlit LCD displays song information, such as artist and title. The radio receives FM1, FM2, TV and weather-system audio; four pre-sets are available for each band. The compact Reson8 speakers produce crisp, full audio that is clear and distortion-free. The unit also includes a built-in cooking timer and clock. A handheld remote unit controls both radio and iPod functions, and a battery back-up maintains clock settings in the event of a power loss. Includes mounting hardware; remote requires two AAA batteries (included) and the battery back-up requires two AA batteries (included). 3 1/4" H x 13" W x 11" D. (8 lbs.)
